

Early Intervention services: Using all of the information available, the IFSP team has identified the following EI services to support our outcomes.

El service type	Method	Location	How often	Session length	Provider agency	Funding source	Projected start date	Projected end date	Outcome number(s)

Method: Direct (D); Joint (J) • In-person: (P); Technology (T)

Location: Home (H); Community (C); Other (O)

For each EI service that will not be provided in our child's natural environment, an explanation of why the outcome(s) cannot be achieved in a natural environment is provided.

List steps that the service coordinator and family will take, including projected date, for moving the service into a natural environment.

List any EI service that is needed, but not yet coordinated.

Steps that the service coordinator will take to coordinate the needed EI service(s).

Timely receipt of services (TRS) due by _____
